

Ph.D. student position at the Max-Planck-Institute for Evolutionary Biology (Plön, Germany)

We have available a Ph.D. student position to study the role of metabolism in bacterial sporulation. The project will be conducted using *Bacillus subtilis*, a model bacterium that provides a wonderful opportunity to learn bacterial genetics, cell biology, and physiology. We are looking for a motivated student who is eager to develop and implement creative approaches to address complex scientific questions. For more information, feel free to send an informal email to Javier Lopez Garrido (lopezgarrido@evolbio.mpg.de).

To apply, send the following documents to the email address above:

1. A cover letter explaining your reasons for applying for this position
2. Your CV
3. Contact information for at least two persons who can serve as references

Applicants should have (or be about to obtain) a Master's degree. The application deadline is December 31st, 2020.
